

# Victoria Solar Container 25kW

## Overview

---

Where can I use a 25kW Solar System?

You can use it in small-medium size industries and businesses. Our 25KW solar setup comes with the various range of products, including solar panels and inverters, and has enough power for several commercial applications. We only supply solar Panels with a high-quality, outstanding performance which are in the CEC approved list of products.

How many solar battery systems have been installed in Victoria?

Through solar battery rebates and loans, more than 20,000 solar battery systems have been installed across Victoria. Sign up to our householder newsletter and get the latest renewable energy news, insights and energy-saving tips delivered to your inbox once a month.

Why should you choose a 25kW Solar System?

As per your electricity needs, the 25KW Solar system designed in such a way that: You can use it in small-medium size industries and businesses. Our 25KW solar setup comes with the various range of products, including solar panels and inverters, and has enough power for several commercial applications.

How long does a 25kW Solar System last?

You'll be able to maintain your 25kW solar system with minimal maintenance. Enjoy 25-30 years of operation for your system. Typically, solar inverters are the one component to expect replacement after 10-15 years of use. Your panels need routine cleaning twice a year if they are installed flat on your roof.
