

Vientiane solar panels exported to

Overview

Vietnam exports most of its Solar panel system to Japan, United States and Vietnam. Which countries export solar panels to Vietnam?

The United States represents Vietnam's largest solar panel export market, accounting for approximately 34% of total shipments valued at over \$2.8 billion in 2024. European markets, led by Germany, the Netherlands, and Spain, comprise another 28% of exports, benefiting from preferential tariff treatment under the EU-Vietnam Free Trade Agreement.

Why is the solar panel industry growing in Vietnam?

Vietnam's solar panel industry is experiencing unprecedented growth, driven by rising energy demands and the country's commitment to sustainable development. However, challenges such as supply chain disruptions, regulatory hurdles, and the need for advanced technology adoption still impede its full potential.

Who makes solar panels in Vietnam?

Today, Vietnam hosts over 47 solar panel companies, including major international players like Longi Solar, JinkoSolar, and Canadian Solar, alongside emerging domestic manufacturers such as Bamboo Capital and Sao Mai Group.

Is Vietnam a hub of solar innovation?

Vietnam's solar panel manufacturing industry has adopted advanced technologies and innovative processes, positioning the country as a hub of solar innovation rather than just low-cost production.
