

# **Vientiane solar panels installed on the roof**

## Overview

---

Does Vietnam have a rooftop solar market?

The rooftop solar market in Vietnam has witnessed remarkable growth, with the total capacity for solar power reaching approximately 16,567 MW by the end of 2022. Notably, rooftop solar alone contributes over 9,000MW to this figure, underscoring the significant role of rooftop installations in the nation's renewable energy portfolio.

How to unlock Vietnam's rooftop solar potential?

Policies like feed-in tariffs and power agreements boost rooftop solar by ensuring returns and easing rules. Challenges like low awareness, regulatory gaps, and grid issues must be addressed to unlock Vietnam's rooftop solar potential.

How many MW is rooftop solar power in Vietnam?

As of the end of 2024, rooftop solar power in Vietnam contributed over 9,500 MW to the total installed capacity of approximately 103,000 MW. This significant growth underscores the country's commitment to renewable energy. What government policies support rooftop solar power adoption in Vietnam?

.

Why are rooftop solar PV systems becoming more popular in Vietnam?

systems in recent years. This growth has been driven by government incentives and an increasing awareness of the benefits of renewable energy. In order to facilitate the development of rooftop solar PV projects, Vietnam is putting together a regulatory framework that governs the implementation and operation of these systems.
