

# Wellington Hydrogen Energy Hydrogen Refueling Station

## Overview

---

Where is New Zealand's first green hydrogen refuelling station?

Halcyon, New Zealand's leading green hydrogen producer, opened the country's first green hydrogen fast refuelling station at Wiri, South Auckland on 22 April. This is the second step in a growing nationwide network of supply locations being pioneered by Halcyon and other early adopters of hydrogen technology.

When will Aotearoa New Zealand's hydrogen refuelling network open?

This April 2024, Aotearoa New Zealand's Hydrogen Refuelling Network made leaps and bounds with the opening of Hiringa Energy's green hydrogen refuelling network and Halcyon Power opening the country's first green hydrogen fast refuelling station!.

What is a hydrogen refueling station?

Hydrogen refueling stations (HRSs) are key infrastructures rapidly spreading out to support the deployment of fuel cell electric vehicles for several mobility purposes.

How many hydrogen stations are there in New Zealand?

Even in Europe's most developed hydrogen market, Germany, the infrastructure remains patchy, with only 113 stations in operation. While New Zealand's hydrogen network is expanding, significant investment is needed to make it a viable nationwide option.
