

Wellington Solar System

Overview

Do solar panels work in Wellington?

Wellington receives approximately 2,000 sunshine hours per year, which is suitable for effective solar energy production. Modern solar panels are efficient enough to generate significant power even during overcast days, making solar viable across the region. Do I need council consent to install solar panels in Wellington?

.

Which Solar System is best for Wellington?

Hybrid or grid-tied systems are typically ideal for Wellington due to their flexibility and efficient energy management during cloudy periods. Systems can also be fitted with battery storage to store excess power for use during outages or low-sunlight days. How long does it take to install a solar system in Wellington?

.
