

# **West Asia Solar Water Pump Manufacturer**

## Overview

---

Who makes solar water pumps?

WBS began producing water pumps in 1998. In 2008, we independently developed and produced solar water pumps. We have OEM production for more than 200 solar pump dealers around the world. Over the past 10 years, we have produced more than 150,000 sets of solar water pumps that have been exported to other parts of the world.

What is solar water pumping system?

Solartech solar water pumping system help to solve the problem of land desertification. The project was installed and completed in Naypyidaw, Myanmar in 2015, using Solartech PB first generation 3700W inverters. This device not only meets the drinking water needs of 800 people, but the remaining water is also used to irrigate 100 acres of rice.

What is Solartech water pumping system?

Solartech solar water pumping system now provides the community with a continuous and safe drinking water source, significantly improving residents living conditions. Shenzhen Solartech is making a spectacular appearance at Area C Booth 15.3H20, attracting a steady stream of global visitors since the morning in Canton Fair.

What is a solar well pump used for?

Beyond the listed uses, solar well pumps find application in a multitude of areas, including: Residential water supply: Ensure a steady flow of clean water for your home. Community water projects: Provide sustainable water access to remote communities. Environmental restoration: Support ecosystem revitalization efforts.
