

# **West Asia Supercapacitor Company**

## Overview

---

What makes LICAP a top 10 supercapacitor company?

One of top 10 supercapacitor companies LICAP has always been committed to the development and production of energy storage solutions with market-leading levels. All along, through continuous research and development and improvement of its own technology, it has met the growing demand for energy storage in the market and various applications.

What is a supercapacitor and how does it work?

A supercapacitor is an electrochemical element developed in the 1970s and 1980s that uses polarized electrolytes to store energy. Supercapacitors can be charged quickly, and can reach more than 95% of their rated capacity after charging for 10 seconds to 10 minutes.

Are ZTUC products better than Chinese supercapacitor products?

After third-party testing, in top 10 supercapacitor companies in China, ZTUC products are better than Chinese counterparts in key parameters such as AC and DC internal resistance, leakage current and high and low temperature load life, and some indicators are better than imported products.

Which supercapacitor company produces 500 million Ah lithium ion batteries?

Recent layout: LISHEN in top 10 supercapacitor companies now has an annual production capacity of 500 million Ah lithium-ion batteries, and its products include six series and hundreds of models of round, square, polymer batteries, power batteries, photovoltaics, and supercapacitors.
