

Western European energy storage electricity budget

Overview

How many battery energy storage systems were installed in Europe in 2024?

21.9 GWh of battery energy storage systems (BESS) was installed in Europe in 2024, marking the eleventh consecutive year of record breaking-installations, and bringing Europe's total battery fleet to 61.1 GWh. However, the annual growth rate slowed down to 15% in 2024, after three consecutive years of doubling newly added capacity.

How many megawatts of energy storage were installed in Europe in 2024?

Historic and forecasted megawatt installs of energy storage across Europe. Image: EASE / LCP Delta. A total of 11.9GW of energy storage across all scales and technologies was installed in Europe in 2024, bringing cumulative installations to 89GW.

How much battery storage will Europe have in 2025?

In the most-likely scenario for 2025, 29.7 GWh of battery storage will be installed in Europe, representing a 36% annual growth. By 2029, the report anticipates a sixfold increase to nearly 120 GWh, driving total capacity to 400 GWh (EU-27: 334 GWh).

What is the European energy inventory storage dataset based on?

Please wait. Disclaimer: The European Energy Inventory Storage dataset is mainly based on public data and data from Wood Mackenzie. Wood Mackenzie Limited, subject to any additional data modifications and/or input provided by the EC or any of its authorised 3rd party contributor.

European Energy Storage Inventory Real-time Energy Storage Dashboard Disclaimer: The European Energy Inventory Storage dataset is mainly based on public data and data from ...

Rapid expansion of Europe's storage - new report

Apr 8, 2025 · The latest edition of the European Market Monitor on Energy Storage by the European Association for Storage of Energy and LCP Delta, released on 31 March, highlights ...

New report: "EU energy storage action plan needed"

May 26, 2025 · We urge the European Commission to double-down on their efforts here and come forward with an EU Energy Storage Action Plan as part of a broader Energy System ...

Europe installed 12GW of energy storage in ...

Apr 1, 2025 · A total of 11.9GW of energy storage across all scales and technologies was installed in Europe in 2024, bringing cumulative ...

Europe's Battery Storage Additions Set for ...

3 days ago · Europe's battery storage sector is entering a period of rapid scale-up, with annual deployments set to climb from 11 GW in 2024 to 16 ...

European battery storage installations to ...

May 7, 2025 · European battery storage installations set a new record in 2024 with 21.9 GWh added, bringing total capacity to 61.1 GWh despite a ...

European battery storage installations to grow 36% in 2025, ...

May 7, 2025 · European battery storage installations set a new record in 2024 with 21.9 GWh added, bringing total capacity to 61.1 GWh despite a slowdown in growth to 15 percent after ...

European battery storage to rise 45% in 2025 to 16 GW

2 days ago · Europe's battery energy storage system (BESS) market is expected to grow 45% year-over-year in 2025, expanding to 16 GW from a total of 11 GW as of 2024, according to an ...

Rapid expansion of Europe's storage - new ...

Apr 8, 2025 · The latest edition of the European Market Monitor on Energy Storage by the European Association for Storage of Energy and LCP ...

Europe's Battery Storage Additions Set for 45% Jump in 2025

3 days ago · Europe's battery storage sector is entering a period of rapid scale-up, with annual deployments set to climb from 11 GW in 2024 to 16 GW in 2025, a 45% year-over-year ...

Economic outlook for Europe's battery storage improving ...

5 days ago · The economics of battery storage systems (BESS) in Europe look much rosier following changes to the European Union's (EU) power pricing structure in October, with ...

New report: European battery storage grows 15% in 2024, EU energy

May 7, 2025 · New report: European battery storage grows 15% in 2024, EU energy storage action plan needed Press Release 7 May 2025 MUNICH, Germany (Wednesday 7th May ...

European battery storage fleet expected to grow 45% year ...

2 days ago · Germany continues to lead Europe's battery energy storage market, with 18 GW of utility-scale demand and 8 GW from commercial and industrial applications over the next decade.

Europe installed 12GW of energy storage in 2024

Apr 1, 2025 · A total of 11.9GW of energy storage across all scales and technologies was installed in Europe in 2024, bringing cumulative installations to 89GW. According to the ninth annual ...
