

# What are the sodium-lithium combined energy storage power stations

## Overview

---

What is the first large-scale sodium-ion battery energy storage station in China?

In May 2024, Southern Grid commissioned a 10 MWh sodium-ion battery energy storage station in Nanning, Guangxi province, the first large-scale sodium-ion battery energy storage station in China. The energy storage station can store 100,000 kWh of electricity on a single charge, which can meet the needs of around 12,000 households for a day.

What is a lithium battery energy storage system?

A Lithium-ion Lifepo4 Battery Energy Storage System is a large-scale system, such as 300kWh or 500kWh, that stores power when the power is surplus and outputs the stored power to the grid through the inverter when the power is insufficient.

Where will lithium-sodium hybrid systems be deployed in China?

As standardization frameworks develop, lithium-sodium hybrid systems could see broader deployment across China's renewable-rich regions such as Tibet, Xinjiang, and Gansu. Grid-forming storage is projected to account for up to 40% of China's new energy storage market by 2030.

Does a hybrid lithium-sodium storage system save money?

CSG estimates that the hybrid lithium-sodium model reduces system costs by around 30% compared with sodium-only storage, offering a more balanced trade-off between efficiency and economics.

## What are the sodium-lithium combined energy storage power station

---

China launches world's first grid-forming sodium-ion battery storage

Jun 3, 2025 · The Baochi Storage Station in Yunnan integrates lithium and sodium-ion technologies at scale, a global first, aiming to stabilize renewable energy and cut costs as ...

---

China's 1st large-scale lithium-sodium hybrid ...

May 27, 2025 · The energy storage station uses the latest high-capacity sodium-ion batteries with a top response speed six times faster than other ...

---

China's first lithium-sodium hybrid station ...

May 27, 2025 · China just fired up a next-gen battery hub blending lithium and sodium in its latest energy leap. On Sunday, its first lithium-sodium ...

---

China's first lithium-sodium hybrid station produces 98% green energy

May 27, 2025 · China just fired up a next-gen battery hub blending lithium and sodium in its latest energy leap. On Sunday, its first lithium-sodium hybrid energy storage station began ...

---

New power system , China's first large-scale lithium-sodium

May 30, 2025 · On May 25, China's first large-scale lithium-sodium hybrid energy storage station -- the Baochi energy storage station developed by CSG -- was officially put into operation in ...

---

China Launches First Large-Scale Lithium-Sodium Hybrid Energy Storage ...

Jun 12, 2025 · "By combining lithium and sodium battery technologies, we can enhance the grid's flexibility in responding to load fluctuations--without significantly increasing the cost of building ...

---

China Launches Lithium-Sodium Hybrid ...

Jun 4, 2025 · CSG has launched China's first large-scale lithium-sodium hybrid energy storage station in Wenshan Zhuang and Miao Autonomous ...

---

China launches world's first grid-forming ...

Jun 3, 2025 · The Baochi Storage Station in Yunnan integrates lithium and sodium-ion technologies at scale, a global first, aiming to stabilize ...

---

First mixed sodium-ion battery station at grid ...

May 28, 2025 · The energy storage system combines lithium- and sodium-ion batteries to supply 270,000 households with 98% renewable electricity ...

---

China Launches Lithium-Sodium Hybrid Energy Storage

Jun 4, 2025 · CSG has launched China's first large-scale lithium-sodium hybrid energy storage

station in Wenshan Zhuang and Miao Autonomous Prefecture.

---

China's First Lithium-Sodium Hybrid Energy Storage Station ...

May 28, 2025 · China's first large-scale lithium-sodium hybrid energy storage station, located in Wenshan, Yunnan province, is now operational. The station, run by China Southern Power ...

---

China Launches Revolutionary Lithium ...

May 28, 2025 · China has recently inaugurated its first lithium-sodium hybrid energy storage station, known as the Baochi Energy Storage Station ...

---

China's 1st large-scale lithium-sodium hybrid energy storage ...

May 27, 2025 · The energy storage station uses the latest high-capacity sodium-ion batteries with a top response speed six times faster than other existing sodium-ion batteries.

---

First mixed sodium-ion battery station at grid level used to ...

May 28, 2025 · The energy storage system combines lithium- and sodium-ion batteries to supply 270,000 households with 98% renewable electricity throughout the year. It is the first such ...

---

China's Green Leap: Hybrid Battery Station Powers 270,000 ...

May 27, 2025 · The Bottom Line China's first large-scale lithium-sodium hybrid energy storage station is a game-changer for the renewable energy landscape. By integrating the strengths of ...

---

China Launches Revolutionary Lithium-Sodium Hybrid Energy ...

May 28, 2025 · China has recently inaugurated its first lithium-sodium hybrid energy storage station, known as the Baochi Energy Storage Station (BESS), in Yunnan Province. This facility ...
