

What types of outdoor power supplies are included in Romania

Overview

What are the different types of power plugs in Romania?

In Romania, there are two main types of power plugs and outlets: Type C and Type F. Type C: Type C plugs have two round prongs on either side of the plug, commonly known as Euro plugs. Mostly used in Europe, South America, and Africa. Type C outlets can be fit with either Type E or Type F plugs.

What type of power outlet is used in Romania?

The power outlets used in Romania are type F and are commonly referred to as "Schuko plugs." They are the most common type of outlet in Europe. Type F outlets are compatible with Type C and E plugs that are also commonly found throughout Europe. In Romania, the electricity's standard voltage is 230 volts with a standard frequency of 50 hertz.

What is the voltage in Romania?

Just like the rest of Europe, the voltage in Romania is 230 volts and the frequency is 50 Hz. Romania has standardized on type F sockets and plugs. Type C and type E plugs can also be used thanks to their compatibility with type F sockets.

Do I need a travel adapter in Romania?

The electrical outlets and power plugs in Romania are of types C & F (see images). If your country uses the same electrical outlets and power plugs, you don't need a travel adapter. However, you may still need a voltage converter if the voltage is different.
