

# Where are the 5G base stations that Zagreb Communications has built

## Overview

---

What is Hrvatski Telekom's NextGen 5G airports project?

By bne IntelliNews Hrvatski Telekom has unveiled a €5.6mn NextGen 5G Airports project aimed at transforming operations at Zagreb, Zadar and Pula airports through the deployment of private 5G networks, the company said on June 19.

How will private 5G help airports digitise?

“Airports must digitise to meet rising passenger demand and private 5G is a key enabler of this transformation,” he said. Zagreb Airport will use drones and AI analytics to speed up inspections of its 188,000 m<sup>2</sup> runway, while Pula Airport plans to install 50 UHD cameras and sensors for real-time perimeter surveillance.

How will Zagreb Airport use AI?

Zagreb Airport will use drones and AI analytics to speed up inspections of its 188,000 m<sup>2</sup> runway, while Pula Airport plans to install 50 UHD cameras and sensors for real-time perimeter surveillance. Zadar Airport will adopt AI-powered tablets for maintenance reporting, replacing manual processes.

Will private 5G improve passenger experience?

Private 5G networks will enhance operational efficiency, safety, and passenger experience, said Boris Drilo, board member for technology at Hrvatski Telekom. “Airports must digitise to meet rising passenger demand and private 5G is a key enabler of this transformation,” he said.
