

# **Where is the solar air conditioning plant in Douala Cameroon**

## Overview

---

How to optimize solar generation in Douala Cameroon?

Assuming you can modify the tilt angle of your solar PV panels throughout the year, you can optimize your solar generation in Douala, Cameroon as follows: In Summer, set the angle of your panels to  $12^\circ$  facing North. In Autumn, tilt panels to  $11^\circ$  facing South for maximum generation.

Where is the best location for solar energy generation in Cameroon?

Douala, Littoral, Cameroon, situated at latitude 4.0575 and longitude 9.691, offers a promising location for solar energy generation throughout the year. This tropical city experiences consistent sunlight, with seasons primarily characterized by wet and dry periods rather than traditional temperature-based seasons.

Why is Douala a good location for solar PV installations?

This consistent year-round production makes Douala an excellent location for solar PV installations. The minimal variation between seasons ensures a reliable energy supply throughout the year, with winter and spring being particularly favorable for solar generation.

How much solar power does Cameroon produce a year?

Seasonal solar PV output for Latitude: 4.0575, Longitude: 9.691 (Douala, Cameroon), based on our analysis of 8760 hourly intervals of solar and meteorological data (one whole year) retrieved for that set of coordinates/location from NASA POWER (The Prediction of Worldwide Energy Resources) API: Average 4.20kWh/day in Summer.

## Where is the solar air conditioning plant in Douala Cameroon
