

Where to buy UPS battery cabinets in Pretoria

Overview

How to choose UPS battery cabinets?

Furthermore, the cabinets need to offer removable hinged doors so that the UPS system can be easily accessed. Doors need to be locked for safety and security. UPS Battery Cabinets have to be designed to house most front terminal batteries. Your UPS Battery Cabinets should have removable side panels so that cables can be easily installed.

What size battery cabinets are available at PSS distributors?

Battery cabinets at PSS Distributors come in various sizes and can accommodate up to 40 x 12V 100Ah batteries as well as up to 8 x 12V 200Ah. Also available are movable battery cabinets and open battery stands. Our products provide power protection and backup power to all industries, including small-to-medium size businesses.

Why do you need a battery cabinet?

Proper housing is crucial for maintaining optimal performance and safety for your Uninterruptible Power Supply (UPS) batteries. Our cabinets are designed to provide a secure, organized, and temperature-controlled environment, essential for maximizing battery lifespan and complying with safety regulations.

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) is an electrical device that filters your incoming power and protects your equipment from spikes, dips, surges, high/low voltages and blackouts. Various backup options are available and the period of backup time depends on the client.
