

# Which company s 5G base station equipment does China Communications use

## Overview

---

How many 5G base stations are there in China?

With 4.19 million 5G base stations already operational across China, the MIIT emphasized that “promoting 5G revolution and 6G innovation will be one of the priorities” for 2025, according to a report by Chinese newspaper China Daily. Chinese main operators are China Mobile, China Telecom and China Unicom.

What is China's first military-grade mobile 5G base station?

Please contact us for more information. China unveils the world’s first military-grade mobile 5G base station, developed by China Mobile Communications Group and the PLA, designed for battlefield use to enable seamless communication for up to 10,000 military robots and drones within a 3-kilometer radius.

What is China's Military 5G system?

China's military 5G system leverages civilian 5G infrastructure, enabling rapid switching between drones and ground base stations, positioning the PLA as a leader in unmanned combat capabilities and outpacing U.S. efforts in military 5G development.

Which companies have been awarded a 5G contract?

Smaller contracts were also awarded to Datang Mobile Communications Equipment, Ericsson, and Nokia Shanghai Bell. China Mobile plans to operate more than 1.6 million 5G base stations this year, increase its number of cloud servers by more than 240,000 units, and add 40,000 external data center racks.
