

Which type of foldable shipping container is better for school grid connection

Overview

What is a shipping container classroom?

This is a product designed for schools as the perfect space for temporary classrooms during any construction or refurbishment work to existing classrooms. Shipping container classrooms allow schools and nurseries an economical and flexible way to extend the space available for teaching.

What is a studybox shipping container classroom?

StudyBox shipping container classrooms are made by converting shipping containers and joining them up to give wider areas of space. We fit them with a standard range of basic features to make the ideal, clean, easy to maintain and functional teaching space. What's included in the StudyBox?

.

How wide are shipping containers?

Shipping containers are built to a standard width of 8ft, which can be too narrow for some purposes. For details on the building process, see our page [Joining Up Shipping Containers](#). Our experience of joining up shipping containers is extensive and includes garages and office space, and work for charities, nature reserves and schools.

How many containers are in a 20ftx 24ft studybox?

This case study uses three containers to create the 20ftx 24ft StudyBox. We offer a range of additional features that enhance the function and appearance of the StudyBox. Shipping container classrooms can include adding carpet, providing toilets (either integrated or separate) or an on-site assembly service.
