Exceptional Service, Diverse Selection, and Nationwide Delivery. Stay Powered Up with Us! Call or Email for wholesale or volume inquiries, sales@batterysales.com or 305-891-8355.

Where are batteries made?

Battery manufacturing in America spans from established operations like East Penn Manufacturing, founded in 1946 with initial production of five battery types, to newer facilities such as Stryten Energy's current 15 GWh annual production capacity.

Who makes a battery?

Large-scale operations like Clarios' 150 million annual battery production and Tesla's 100 GWh cell factory capacity serve high-volume markets. Specialized manufacturers like American Battery Solutions and Batteries America focus on targeted applications with customized solutions.

How many battery manufacturers are there in the US?

Battery manufacturers in the USA currently employ 34,891 workers across 292 companies, generating combined sales of \$52 billion. The domestic battery manufacturing sector demonstrates concentrated regional production, with 32% of operations located in the South.
