

Why did the data of the battery cabinet disappear

Overview

Why do battery stats reappear?

Per app battery stats appear and disappear with no rhyme or reason that I can see. When they reappear, they often include usage from apps that were uninstalled in the interval where the stats were missing. So the data is still being collected. just the user interface goes missing.

Why is my battery draining faster after One UI 7 update?

After many users reported faster battery drain following the One UI 7 update, I have created this post to explain why it's not some Samsung conspiracy, but instead a technically complex shift in systems behaviour whenever new instructions are loaded 🌀 So what causes it?

1. System relearning & indexing.

Do you worry about battery usage?

Battery usage will only show if the stays powered on and with at least 90-100% charged. If you update, respring or restart your device, it will reset to - until you charge it up 90%. If I were you, I wouldn't worry about it since it can drive you battery crazed. I am not worried about it. My battery life is spectacular. What I am is curious.
