

Wireless outdoor base station manufacturer selection

Overview

What is the TP-Link outdoor wireless base station?

The TP-LINK Outdoor Wireless Base Station pairs professional performance with user-friendly design, making it the perfect solution for both business and home users. Two external RP-SMA antenna interfaces allow the Outdoor Wireless Base Station to integrate seamlessly with TP-LINK's line of sector and dish antennas.

What is a wireless base station?

With the help of the system, a wireless base station is an example of an access point that acts between a wireless node and with other wired PCs and peripherals. A device that is placed between network segments (or "subnets") to ensure that traffic is properly routed between different subnets.

Can the wbs510 be paired with a TP-Link dish antenna?

Where long- distance wireless data transmission is necessary, the WBS510 can be paired with a TP-LINK dish antenna, allowing it to transfer data over distances of up to 50 km *. Pharos Base Stations works seamlessly with TP-LINK dish and sector antennas to provide efficient PtP and PtMP data transmission.

Who makes standard products antennas?

We are the Standard Products sales branch of Myers Engineering International, Inc. a Florida licensed Professional Engineering firm specializing in Antennas, Electromagnetics and Communications Electronics. All antennas featured in this catalog are made in the USA by us.
