

# Yemen solar container outdoor power

## Overview

---

Does Yemen have a solar power plant?

Yemen, widely regarded as the Middle East's least electrified nation, is now benefiting from its first large-scale solar plant, which is helping restore power to tens of thousands of households in Aden. The Aden Solar Power Plant, a 120-megawatt facility funded by the United Arab Emirates, began operations in July 2024.

Is solar energy a beacon of hope for Yemen?

In a country long plagued by power shortages, solar energy is emerging as a beacon of hope. Yemen, widely regarded as the Middle East's least electrified nation, is now benefiting from its first large-scale solar plant, which is helping restore power to tens of thousands of households in Aden.

Is solar a stopgap for Yemen?

For Yemen, solar is more than a stopgap. It could form the foundation of a rebuilt energy system that is cleaner, more resilient, and less dependent on imported fuels. If the expansion plan succeeds and output scales, Yemen may begin to reverse decades of decline in electricity access.

Are solar power outages a daily reality in Yemen?

In many regions, outages were a daily reality, disrupting commerce, health services, and daily living, particularly during Yemen's punishing summer heat. In 2023, solar accounted for just 10.4% of Yemen's total electricity output, according to the International Energy Agency.
