

# **Zagreb household solar container battery**

## Overview

---

How many kWh are in a battery storage container?

Each battery energy storage container unit is composed of 16 165.89 kWh battery cabinets, junction cabinets, power distribution cabinets, as well as battery management system (BMS), and the auxiliary systems of distribution, environmental control, fire protection, illumination, etc. inside the container; the battery container is 40 feet in size.

What is a battery energy storage system?

Battery Energy Storage Systems (BESS) store and release electricity to balance supply and demand in the power grid. During periods of excess energy generation, such as from renewable sources like solar or wind, BESS convert electrical energy into chemical energy and store it in batteries.

What is SunGiga energy storage?

Our SunGiga energy storage product offers various voltage and capacity options, featuring integrated Lithium Iron Phosphate (LFP) batteries and advanced Battery Management. With multiple PCS options, dedicated thermal management, and fire suppression systems, SunGiga ensures cost-effective, rapid deployment for diverse grid applications.
