

# Zambia Energy Storage Charging Station

## Overview

---

Can battery storage be used with solar photovoltaics in Zambia?

The Zambian regulation foresees customs duty and VAT exemptions for most equipment used in renewable energy or battery storage projects. Detailed information is provided in In this section, we discuss the opportunity of battery storage in combination with solar photovoltaics from a financial point of view.

How much does a solar battery cost in Zambia?

Africa Clean Energy Technical Assistance Facility. (2022). Customs Handbook for Solar PV Products in Zambia. Bloomberg New Energy Finance. (2022, December 6). Lithium-ion Battery Pack Prices Rise for First Time to an Average of \$151/kWh.

Will Zambia increase its solar power capacity by 2030?

The Zambian government has set a target to increase its installed solar and wind capacity to 600 MW by 2030. However, the current installed capacity for solar photovoltaics is only 90 MWp, indicating significant underutilisation of Zambia's potential in the renewable energy sector.

Who owns the Kariba hydro power station in Zambia?

The Kariba North Bank Hydro Power Station operated by ZESCO on the Zambian side has an installed capacity of 1,080 MW. The Kariba South Bank Hydro Power Station is operated by Zimbabwe and has an installed capacity of 1,050 MW. Private companies also trade in electricity in Zambia.

## Zambia Energy Storage Charging Station
